We hope you find this guide a useful tool to submit a petition in Montana!

This guide is meant to assist users with this complicated process. If you have questions, please consult legal counsel.
Up-to-date information on the ballot issue process is on the Secretary of State’s (SOS) website at sosmt.gov/Elections.

It is the responsibility of the sponsor to ensure all applicable laws are followed, including those governing signature gathering activities and deadlines. In addition, each ballot issue sponsor should review MCA Title 13, Chapter 27 and Article III, Article IV and Article XIV of the Montana Constitution.
In 1906 Montana voters approved the creation of initiative and referendum – a system of making laws by the people.

This presentation does not cover candidate petitions, party petitions, recall petitions, or local petitions.

There are different types of statewide petitions relating to statutory initiatives, constitutional initiatives, and initiative referendums.

As a signature gatherer, paid or voluntary, you are on the front lines of the system and are helping to amend or create a state law.

All signature gatherers should know and follow all guidelines and applicable laws.
An initiative is when a citizen or group starts a petition for an idea that they would like to change or become a law or an amendment to the state constitution.

Referendum

Section 5. Referendum. (1) The people may approve or reject by referendum any act of the legislature except an appropriation of money. A referendum shall be held either upon order by the legislature or upon petition signed by at least five percent of the qualified electors in each of at least one-third of the legislative representative districts. The total number of signers must be at least five percent of the qualified electors of the state. A referendum petition shall be filed with the secretary of state no later than six months after adjournment of the legislature which passed the act.

(2) An act referred to the people is in effect until suspended by petitions signed by at least 15 percent of the qualified electors in a majority of the legislative representative districts. If so suspended the act shall become operative only after it is approved at an election, the result of which has been determined and declared as provided by law.

A referendum is when a person or group seeks to overturn a law that has just been passed by the Montana Legislature.
How do initiatives and referendums end up on the ballot?

- To place an initiative or referendum on the ballot, petitioners must obtain a specified number of valid signatures of Montana registered voters.
- The total number of valid signatures required is determined by the state constitution.
- The number of valid signatures required is based upon a percentage of the total votes cast for all candidates for Governor at the most recent election.
For a constitutional initiative, the statewide percentage is 10%, and 10% of the voters in each of at least 40 legislative representative districts.

The percentage for a statutory initiative or referendum to qualify for the ballot is 5% statewide, and 5% of the qualified voters in each of 34 legislative representative districts.
