Serving as an Election Judge

In the United States, more than 1.4 million citizens serve as election judges! On election day, a citizen's right to vote and have that vote count can rest in the hands of the "people on the ground" – the **Election Judges**. There are few jobs as critical to our democracy as the job of an Election Judge.

Election Judges – whether working at polling places, counting ballots or doing other assigned duties – provide a vital and important function for the voters of the **State of Montana**. It is in large part because of the time and effort election judges have committed that Montana's elections are fair, accurate and accessible. Together we can help instill confidence in Montana voters that their vote is valued and important!
