Montana's B.E.S.T.

Because Your Vote DOES Count.

Your Vote Does Count . . .

Did you know since the adoption of our State's Constitution in 1972, less than twenty votes have decided forty-five legislative races? In 1984, one legislative candidate ended up winning his seat thanks to a coin toss after the election results showed a tie vote. Our current Speaker of the House in the Montana Legislature won his first election that same year by a total of five votes. Lee Metcalf won his party's nomination in 1952 for U.S. Representative for the First Congressional District by all of fifty-five votes in a hotly contested five-way primary contest. *Each vote is important and does make a difference!*

After Montana's low voter turnout in the 1998 primary election, the **BEST** program, or Building Excellent Statewide Turnout was started. The program's goal was to increase voter awareness and voter turnout across the state. Montana's voters were constantly reminded to vote in the general election every time they went to a fast food restaurant, grocery store, and even the movies. After the general election in 1998, Montana registered voters stormed the polls, placing Montana second for the national voter turnout behind Minnesota's thrilling race with Jesse Ventura.

The **BEST** program was again implemented this year in hopes of increasing voter turnout for the General Election on November 7th. The program worked with businesses, the media, and organizations who could help get Montanans excited about going to the polls as well as focusing on kids, who represent Montana's future.

I would like to thank everyone for their time, their efforts and their dedication. Your response and willingness to help has been outstanding.

Now it's up to each of us...

Won't you join us November 7th and help Montana become the **BEST**?

Sincerely,

Secretary of State Mike Cooney

Dear Montana Voter:

Montana voters will be making many important decisions at the 2000 general elections. From voting for a new President to deciding whether to amend our state constitution, there are many significant decisions to be made in the poll booth.

I have put together the Voter Information Pamphlet (VIP) to provide you with information you can use to learn more about the different ballot measures upon which you will be voting this November 7th. Please feel free to mark up your copy of the VIP and remember that you may take it into the polls with you when you go to vote.

For more information on the elections, you can go to my web site at: <http://state.mt.us/sos/>. You also may contact my office directly on our toll free hot-line for information on registering and voting; that number is 1-888-884-VOTE (8683).

One new item you will find in the VIP is a statement of purpose for each of the six political parties in Montana. Each party wrote their own statements (which do not necessarily represent the views of the State of Montana) and provided contact information for those of you wanting to get more information on any of the parties.

Every election year I hold a contest among the elementary school students in Montana to decide what cover will go on the Voter Information Pamphlet. The winner is chosen by a statewide vote with people voting either over the internet or in my office. This year's winner is Winston Parker from Rossiter School in Helena. Winston's winning drawing and slogan appear on the cover. As we saw from the many close races this primary, Winston is right...every vote does count.

Therefore, I hope that all Montanans take the opportunity to vote on November 7th and participate in one of the most exciting elections we've had in Montana in a long time.

See you at the polls!

Mike Cooney
Secretary of State

What is the Voter Information Pamphlet?

The Voter Information Pamphlet (or VIP) is a publication printed by the Secretary of State to provide Montana voters with information on statewide ballot measures. The Secretary of State distributes the pamphlets to the county election administrators who mail a VIP to each household with an active registered voter.

Who writes the information in the VIP?

The Attorney General writes an explanatory statement for each measure. The statement, not to exceed 100 words, is a true and impartial explanation of the purpose of each measure in easy to understand language. The Attorney General also prepares the fiscal statement, if necessary, and for and against statements for each issue.

Pro and con arguments and rebuttals are written by the members of the appropriate committee. Arguments are limited to one page and rebuttals to a half page. All arguments and rebuttals are printed exactly as filed by the committees and do not necessarily represent the views of the Secretary of State or the State of Montana.

Who can vote by absentee ballot?

Thanks to a law change in 1999, any voter can now request an absentee ballot. A reason to vote absentee, such as expecting to be absent from the county, is no longer required.

An absentee ballot may be requested from your county election administrator no later than noon the day before the election (or by noon on election day if you have a sudden health emergency). The request (or application) for a ballot must be in writing.

How can I find out if I am registered?

If you are not sure if you are or where you are registered, you should contact your county election administrator. (See page five for addresses and phone numbers for all the county election administrators.) The registration deadline for the general election is October 10th.

Who is eligible to register?

Anyone who is a citizen of the U.S., at least 18 years of age, and a resident of Montana and the county for 30 days by the date of the election may register to vote.

Can I get the VIP in a different format?

For more information on the elections, you can go to the Secretary of State's web site at: <http://state.mt.us/sos/>. You also may contact the office directly on the toll free hot-line set up to answer questions on registering and voting; that number is 1-888-884-VOTE (8683). Audio versions of the VIP are available at local libraries throughout the state.

If you would like the VIP in large-print or in an alternative format, please feel free to contact the Secretary of State's office with your request. The Secretary of State has a telecommunications device for the deaf (TDD) at (406) 444-9068.

STATEMENTS OF PURPOSE

These statements have been prepared by each of the political parties. The opinions expressed do not represent the views of the State of Montana, but have been included to provide information to the voters on the political parties in Montana.

Constitution Party

The Constitution Party believes the purpose of government is to protect the individual citizen's right to life, liberty and property. It is not government's role to burden citizens with unjust or unneeded laws; or to act as "nursemaid" by instituting countless social programs.

We further believe that we must:

- Restore this country to "One Nation Under God."
- Return to Constitutional, Limited Government.
- Protect the Inalienable Right to Life of All, including the Unborn and Infirm.
- Protect the Individual Right to Keep and Bear Arms.
- Restore National Sovereignty, including withdrawal from the U.N.
- Maintain a Strong National Defense.
- Repeal the Income Tax and replace it with Tariffs, Duties & Excise Taxes.
- Abolish the Federal Reserve.

- End Federal Subsidies for and Control of Education and Welfare.
- Return Control over Elections to the People.
- Abolish Special Interest Entitlements (corporate welfare).

We oppose the use of Social Security numbers as a means of personal identification. We oppose the Children's Health Insurance Plan. It is socialized medicine on the "installment plan," and will eventually cost us dearly.

We invite all who love liberty and justice to join with us in our pursuit of restoring our civil government to our country's founding principles.

Democratic Party

The Montana Democratic Party puts people first. Slipping to 50th in the nation in wages is shameful! We will fight for Montana's working families. We have consistently and vigorously fought to provide a basic system of free quality public education. We have fought for Montana's Main Street businesses. We have fought to maintain a clean and healthful environment for all Montanans. We have defended a woman's right to choose.

Montana Democrats have fought, and will fight, for: jobs, a livable wage for hard-working Montanans, and their right to organize.

- affordable health care, including prescription drugs.
- supporting our schools instead of tax breaks for large corporations and wealthy land owners.
- giving property tax breaks to homeowners and small business owners.

- the basic human rights guaranteed to all by our Constitution.
- sustainable agriculture and family farms.
- the traditional values of hunting and fishing, and
- public access to public lands and waters.

The preamble to our platform sums it up - - "As Montana Democrats, we believe that 'We the people' are the government and that good government is the way free people assure justice, promote economic growth, educate their children and build communities."

Please join us. Together, we can build a better Montana.

Libertarian Party

The Montana Libertarian Party is the real choice for less government, lower taxes, and more freedom. The Libertarian Party believes in economic and personal freedom. People should be free to make their own choices, provided they don't infringe on the equal right of others to do the same. Governments only role should be to protect people's right to make their own choices in life, so they can reap the rewards of their successes and bear personal responsibility for their own mistakes.

The Montana Libertarian Party is dedicated to:

- * Living wages for Montana's families by reducing the tax burden and reducing the size and scope of state government.
- * Improving education by empowering parents not bureaucrats, to make important decisions for our children.

* Protecting the right to keep and bear arms, and the elimination of Victim Disarmament laws.

* Safer neighborhoods by punishing violent criminals rather than wasting resources prosecuting victimless crimes.

* A cleaner environment through innovative property rights solutions.

If you're tired of the promises of the majority, we invite you to join us as we fight for everyone's liberty on every issue, all the time.

Reform Party

The quality of a democracy is measured by the quality of participation by ordinary citizens. Democratic values and attitudes are learned through participation, and the highest calling of a citizen is to serve fellow citizens in office as a position of trust, enjoying the bonds of affection with the voters for their willingness to sacrifice through public service. The Reform Party is committed to every aspect of this participation, whether inside our party or elsewhere. We are thereby committed to choice in elections, volunteerism within the parties, and citizens who are willing to serve us as elected officials. We are equally committed to honest debate, the forthright presentation of our values, and respect for the rights of everyone.

The Reform Party of Montana will work:

- To elevate the voters of Montana to their rightful place

as the sovereign rulers of the state, returning public office holders to their status as servants of the people, as was intended;

- To restore fiscally responsible government, wherein the state budgets and spends only what taxpayers will allow;

- To encourage voter participation and involvement, within the Reform Party itself, and in the political process as a whole.

Republican

Abraham Lincoln, the first Republican President, fought to protect the freedoms of every American citizen. Teddy Roosevelt, another great Republican President, helped our nation recognize and preserve the vast natural treasures of our state and nation. President Ronald Reagan brought our nation to victory in the Cold War and renewed our faith in the spirit of freedom.

The Montana Republican Party shares their vision and spirit of progress. Today, we are working hard to see that all of Montana's residents are empowered with the opportunity to enjoy the American dream.

Montana Republicans are working for:

- Better Schools for our children. Parents, teachers and local school boards should decide what's best for our children. Local control will help ensure our children receive the high quality education they rightly deserve;

- Tax Relief for working men and women of Montana and an accountable, efficient government responsive to the people who pay their salaries; and

- Economic Development to provide Montanans well paying, stable, and environmentally sound jobs now and into the future.

Republicans are working for our state's future and to ensure that every Montanan has the same opportunities to succeed. Join us as we work together to build a better tomorrow for ourselves, our children, and our communities.

CONSTITUTIONAL AMENDMENT 34

AN AMENDMENT TO THE CONSTITUTION PROPOSED BY THE LEGISLATURE

AN ACT SUBMITTING TO THE QUALIFIED ELECTORS OF MONTANA AN AMENDMENT TO ARTICLE VIII, SECTION 13, OF THE MONTANA CONSTITUTION REGARDING INVESTMENT OF STATE COMPENSATION INSURANCE FUND ASSETS; AND PROVIDING AN EFFECTIVE DATE.

The Legislature submitted this proposal for a vote. It would amend the Montana Constitution to allow monies in the state workers' compensation insurance fund to be invested in private corporate capital stock. Up to 25% of the state fund's assets could be invested in the stock market. Currently, the constitution prohibits such investment of public funds except for monies contributed to retirement funds. Like pension funds, workers' compensation investments would be managed by the State Board of Investments in accordance with recognized standards of financial management.

This measure authorizes the Board of Investments to invest no more than 25% of the workers' compensation fund in the stock market. Average return on investments is expected to be higher over the long term if the measure is passed.

- ☐ FOR allowing a maximum of 25% of state compensation insurance fund assets to be invested in private corporate capital stock.
- ☐ AGAINST allowing a maximum of 25% of state compensation insurance fund assets to be invested in private corporate capital stock.

The language above is the official ballot language. The arguments and rebuttals on the following three pages have been prepared by the committees appointed to support or oppose the ballot measure. The opinions stated in the arguments and rebuttals do not necessarily represent the views of the State of Montana. The State also does not guarantee the truth or accuracy of any statement made in the arguments or rebuttals.

The PROPONENT argument and rebuttal for this measure were prepared by Senator Fred Thomas, Representative Royal Johnson, and Mike Kadas.

The OPPONENT argument and rebuttal for this measure were prepared by Senator Steve Doherty, Representative William Rehbein, and Representative Ray Peck.

ARGUMENT FOR

The Montana State Compensation Insurance Fund is a public entity established to provide a viable option for employers to purchase their mandatory workers compensation coverage at the lowest prudently possible costs. The State Fund will always provide insurance and no employer will be refused if their account is in good standing. Three out of every four businesses in Montana, numbering 23,000, purchase workers compensation from the State Fund.

As an insurance company, State Fund operates in a market that is entitled to and demands reasonable and competitive premiums, excellent service to employers and rapid response to injured workers needs. We the people in the state must respond to these competitive market requirements and allow the State Fund to operate in a prudent, business like and competitive manner.

State Fund and other insurance companies derive their revenues in two primary ways. First, the payment of premiums from their customers and secondly, from income and total return from their investment portfolios. State Fund's current premiums and operational costs are satisfactory, but present state law hinders the opportunity for the fund to keep investment income at a level to keep pace with increasing costs and reduces the ability to increase injured workers benefits.

The current law allows assets to be invested only in fixed income investments. Over the past 73 years, large company stocks have returned 11.2% annually while corporate bonds returned 5.8% annually and government bonds 5.3% annually. Stocks provide almost twice the rate of return of bonds. If the State Fund could have had 20% of it's assets invested in the Montana Common Stock Pool and managed by the Montana Investment Board and staff during the period starting January 1995 and ending December 31, 1999, the result would have been an additional \$100 million in the reserve account. Montana dollars, invested by Montanans, for the benefit of all Montana citizens.

C-34 would allow up to 25% of the State Fund's invested assets to be invested in stocks. This will allow for diversification, reduce volatility and provide the opportunity to yield greater returns over time for the state.

Most Montanans work hard for their money and want their money to work for them. Let's give the State Fund the opportunity to pass on successful financial results to their Montana-based customers.

Vote for C-34 in November 2000.

ARGUMENT AGAINST

If you think you've seen C-34 before, its because you have. Just four short years ago the voters of Montana wisely turned down C-31 by a vote of 214,120 against and 166,752 for. The failed amendment of four years ago would have allowed the Montana Board of Investments to invest up to 15% of the State Fund's assets in common stock.

In contrast to the proposal turned down by Montanans four years ago, C-34 would permit the investment of a staggering 25% of all assets in common stock. We believe that this is an even more reckless proposal and we urge Montanans to reject it in favor of fiscal conservatism. Four years ago, the opponents wrote in the voter information pamphlet, generally and in relevant part, their thoughts which are just as valid today.

The State Compensation Insurance Fund was set up to help those who were injured or suffered loss from injury on the job. Since injuries don't happen on an even schedule, there are highs and lows as far as the need for cash is concerned, and liquidity is required to pay claims on a day-to-day basis. To meet these varying needs money has been held in reserve to make payments through high demand times. The drafters of the Constitution were wise in not allowing these funds to be put into speculative investments where the principal could be lost as has happened in Los Angeles, counties in Maryland and Ohio. v

The need to keep insurance rates down increases the use of any reserves; in fact, the fund was not set up to "make money," any amount above a reasonable reserve should be used to reduce rates to businesses. Common stock should be viewed as a long-term investment, not intended for funds that may be needed at any time. A solid, conservative investment portfolio (returning 10.13% in 1995) should be left intact.

Who picks up the shortfall when losses occur or stock needs to be sold in a low market? First the employer pays until he or she starts taking his/her business out of State; only a few years ago Workers Compensation rates were one of the main reasons businesses were leaving the state. When that happens the State is forced to go to the taxpayer to make up the difference, the Old Fund Liability Tax is a perfect example. We can learn from our own history and that of other governments. The funds held in reserve need to be held as a public trust and not be available for creative speculation as personal funds are.

Recent history has shown us that the stock market is a place where one can make . . . or lose . . . a lot of money. The unprecedented growth experienced in the 1990's may not always be the case. Just look at the recent drops in value for high flying technology stocks. We believe that investing up to 25% of the Fund's assets in a volatile market is an unnecessary risk. Vote for cautious, conservative, prudent investment - vote against C-34.

PROPONENTS' rebuttal of those opposing the issue

Interesting how difficult it is to effect positive change, even in this fast moving, rapidly changing world. The opponents of C-34, present the same (even the wording is copied from their paper of four years ago) old arguments of deception and fear.

C-34 would allow the State Fund long term reserve assets to be invested in common stock under the prudent investor rule. Management of these assets will remain with the Montana State Board of Investments.

The opponents use the words "fiscal conservation". Funk and Wagnall's dictionary defines conservation: to keep from loss, decay or depletion. To vote against C-34 will assure you that over the long term you will have a loss of purchasing power and your capital will erode in value. Why would anyone penalize a Montana business by restricting their ability to obtain proper and qualified management for their account balances?

Past Legislatures have required the State Fund to be the insurer of last resort in workers compensation in Montana. Those Legislators who do not want the State Fund to operate as an insurance company should work to get the State Fund out of the business entirely. Let the private sector, who can make the appropriate changes to stay in business, control this market.

The opponents final argument about the stock market is entertaining at best. Prudent managers of money do not buy the "stock market", they invest in companies that have a record of growth, rising dividend return, potential for future growth through research and generally increasing economic activity. To be cautious, conservative and prudent the past results of investing dictate the use of equity investments for the required return of this business. Vote for C-34.

OPPONENTS' rebuttal of those supporting the issue

When you decide how you are going to vote on this issue you have to ask yourself not how comfortable you personally are with investing risk, but how secure the money kept in reserve to pay workers comp claims should be. We have all watched as the stock market climbed and then dropped. Individual stocks rise and fall. As they do, so do the fortunes of those investors. We believe that investing taxpayers money carries with it high fiduciary obligations, a responsibility that should not be left wide open.

The proponents argue only on the up side of stock investment. The down side makes us call for caution, for conservative investments and a prudent, measured policy. The returns we have previously had with this investment strategy are reasonable. There is no need to put those returns and Montana's workers and businesses at greater risk, vote against C-34.

CONSTITUTIONAL AMENDMENT 35

AN AMENDMENT TO THE CONSTITUTION PROPOSED BY THE LEGISLATURE

AN ACT SUBMITTING TO THE QUALIFIED ELECTORS OF MONTANA AN AMENDMENT TO ARTICLE XII OF THE MONTANA CONSTITUTION REQUIRING THE DEDICATION OF PART OF THE TOBACCO LITIGATION SETTLEMENT MONEY TO A TRUST FUND; ALLOWING THE APPROPRIATION OF PART OF THE INCOME FROM THE TRUST FUND FOR PURPOSES OF TOBACCO DISEASE PREVENTION PROGRAMS AND PROGRAMS RELATED TO HEALTH CARE NEEDS; PROHIBITING THE APPROPRIATION OF THE INCOME FOR THE PURPOSES OF REPLACING MONEY USED FOR TOBACCO DISEASE PREVENTION PROGRAMS AND PROGRAMS THAT EXISTED ON DECEMBER 31, 1999, PROVIDING BENEFITS FOR HEALTH CARE NEEDS OF MONTANANS; AND PROVIDING AN EFFECTIVE DATE.

This proposal, submitted by the Legislature, would amend the Montana Constitution to dedicate not less than 40% of Montana's share of the settlement with major tobacco companies to a permanent trust fund. Ninety percent of the trust fund's interest would be used for health care benefits, services or coverage and tobacco disease prevention. The remaining 10% would be deposited in the trust. The trust's principal could only be spent for these same programs if approved by a 2/3 vote of each house of the legislature. The trust's interest and principal cannot be used to replace current funding for these programs.

Montana's share of the nationwide settlement with the tobacco companies is expected to average \$30 million annually for the next 25 years. Current law places settlement payments in the general fund. This initiative would reduce tobacco settlement funds going to the general fund by as much as \$12 million annually.

- ☐ FOR dedicating not less than 40% of the tobacco settlement to a trust fund for health care benefits, services, or coverage and tobacco disease prevention.
- ☐ AGAINST dedicating not less than 40% of the tobacco settlement to a trust fund for health care benefits, services, or coverage and tobacco disease prevention.

ARGUMENT FOR

HELPING TO BUILD A HEALTHIER MONTANA

Here's what C-35 will do for Montana:

- ✓ **The national tobacco settlement offers a once-in-a-lifetime opportunity** to invest in improving the health of Montanans. C-35 would establish an income-producing trust fund that would enable Montana to leverage its settlement proceeds to generate a stable source of funding to meet health care needs.
- ✓ **Forty percent (about \$12 million) of each of Montana's annual settlement payments would go to the trust fund.** The remainder would go to the state's general fund. Overall, the state is projected to receive between \$800 and \$900 million over 25 years from the tobacco settlement. Under C-35, the trust fund would grow to about \$400 million over this period.
- ✓ **C-35 trust fund money would be used to help pay for health care programs for Montanans.** Ninety percent of the income earned each year by the trust fund could be appropriated by the Legislature for health care programs. The remaining 10 percent would be reinvested in the trust fund to offset inflation.
- ✓ **The sponsors of the initiative intend that this money be used to fund health care and tobacco disease prevention programs.** The money could not be used to replace current general fund spending.
- ✓ **C-35 was developed by a coalition of about 30 organizations.** These coalition members have come together for the betterment of in Montana. A meeting of minds from this broad spectrum of representation displays a strong concern for the future healthcare of Montanans. This coalition known as "The Alliance for a Healthy Montana" includes: the American Association of Retired Persons, American Cancer Society, American Heart Association, American Lung Association, Blue Cross Blue Shield of Montana, Health Insurance Association of America, Health Mothers Healthy Babies, MHA..An Association of Montana Health Care Providers, Montana Association of Home Health Agencies, Montana Campaign for Tobacco-Free Kids, Montana Center for Adolescent Development, Montana Chapter of the American Academy of Pediatrics, Montana Council for Maternal & Child Health, Montana Dental Association, Montana League of Women Voters, Montana Medical Association, Montana Medical Benefit Plan, Montana Nurses' Association, Montana Primary Care Association, Montana Senior Citizens Association, Montana State Pharmaceutical Association and other public health agencies.
- ✓ **Additionally, C-35 has been endorsed by:** Governor Marc Racicot, the Governor's Advisory Council on Tobacco Prevention and Gubernatorial candidates Judy Martz and Mark O'Keefe. The Health Care Advisory Council, Lewis & Clark City-County Board of Health, Montana Comprehensive health Association, Montana Gerontology Society, and the Yellowstone City-County Board of Health.
- ✓ **Voting yes for C-35 is voting yes for the future health of Montanans.**

ARGUMENT AGAINST

Constitutional Amendment 35 should not be added to Montana's Constitution.

C-35, is a Constitutional Amendment, requiring a Trust Fund be established with a minimum of 40% of the tobacco settlement agreement money. The settlement agreement is intended to reimburse tax payers for the costly and harmful results of tobacco use and to educate society of the health dangers associated with tobacco use.

Montana's Constitution is a good frame work, that guarantees certain rights and provides a process for a government by the people. Our Democracy is a government in which the supreme power is vested in the people and exercised directly by them or by their elected agents under a free electoral system.

This Constitutional Amendment takes away the flexibility to meet the needs of Montanan's. The spending of Montana's tobacco settlement agreement money should remain flexible to meet health cost paid by tax payers, tobacco prevention education and general needs of Montana's as determined by the government of the people.

The Constitution should remain a structured outline and not become a micro-managing document of time sensitive ideas.

PROPOSERS' rebuttal of those opposing the issue

Rebuttal to Opposition Argument to C-35

The opponents of C-35 argue that this constitutional amendment would take away the state's flexibility in deciding how to spend its share of the national tobacco settlement. In fact, just the opposite is true.

C-35 strikes an appropriate balance between using the settlement money for addressing short-term and long-term needs. In doing so, it gives the state more flexibility in using its share of the tobacco settlement.

C-35 would enable the state to use 60 percent of each year's settlement receipts to meet immediate health care and other needs. In addition, the initiative would allow lawmakers to use the principal in the trust fund, in the event of a fiscal emergency.

By dedicating not less than 40 percent of each year's settlement receipts to the trust fund, C-35 also would ensure that long after the tobacco receipts have slowed to a trickle, the trust fund will still be generating a stable source of funding for health care programs.

C-35 represents a balanced and wise approach for investing our state's share of the tobacco settlement. This approach has gained widespread public support, as evidenced in a *Lee Newspapers* poll as well as a survey conducted by C-35's supporters. Please support C-35.

OPPONENTS' rebuttal of those supporting the issue

Please vote against C-35.

The law suit against the tobacco industry, referred to the costly and harmful results to individuals that were not aware of the possible hazards associated tobacco use. Those costs have occurred for the past 50+ years and exist now. **These consequences should be dealt with now** and not held in trust for generations, decades from now.

Future settlements from lawsuits of industries that will be targeted next, such as the gun manufacturers and manufacturers of food products that could be harmful, such as candy bars, will likely follow the direction of this huge lawsuit settlement, so **we need to proceed with caution.**

The list of supporters for C-35 is quite long. It's normal for special interest groups to become supporters when there is a monetary benefit to them

Interest, income, or principal from the C-35 trust can not be used to replace existing, failing health care and educational programs (Section 4, par. 3). C-35 trust money must be used for new programs only. Under C-35 **the old programs are locked in, effective or not**

The settlement agreement is **intended to reimburse tax payers for the costly and harmful results of tobacco use** and to educate society of the health dangers associated with tobacco use. In addition to the cash settlement to states, the lawsuit agreement provides \$300 million dollars per year to a national foundation for the educational purpose of informing Americans of the ill effects of tobacco use. C-35 trust fund will be exclusively used for government run health programs and additional dollars to educate society of the harmful effects of tobacco use. **Tax payers get nothing back.**

Please vote against C-35 Constitutional Amendment 35 should not be added to Montana's Constitution.

The Legislature submitted this proposal for a vote. It would repeal the sales tax on new motor vehicles and replace the current light vehicle tax system with a registration fee based on the vehicle's age. In addition to other statutory fees, such as junk vehicle fees, etc., annual fees would be:

	<u>Light vehicle age</u>
\$195	4 years old or less
\$65	5 to 10 years old
\$6	11 years old or older

Upon payment of specified fees, light vehicles could be registered for a 24-month period and some vehicles 11 years old or older could be permanently registered.

It is estimated that replacement of the vehicle tax with a flat fee will generate approximately the same amount of total revenue. However, elimination of the new car sales tax will result in approximately \$5.5 million less revenue to the state.

- ☐ FOR reducing the taxation of light vehicles and eliminating the sales tax on new motor vehicles.
- ☐ AGAINST reducing the taxation of light vehicles and eliminating the sales tax on new motor vehicles.

ARGUMENT AGAINST

Argument Against LR-115

Local governments (i.e. cities, towns and counties) and schools are the primary beneficiaries of motor vehicle revenues. LR-115, if adopted, would further erode revenues to local governments, schools and the state general fund without providing an alternative funding source. Since no funding source is provided, it is likely that property taxes on homes and businesses would have to be raised at the local level and income taxes at the state level to offset the loss in motor vehicle revenue. What LR-115 represents is part of a larger attempt to starve local governments of revenue by eroding or eliminating traditional revenue sources with the larger goal to set the stage for the adoption of a general sales tax.

LR-115 is bad public policy because it abolishes a tax structure whereby taxpayers pay motor vehicle fees based on the depreciated value of their vehicle and replaces it with a fee schedule based on age of the light vehicle. This proposed change substantially reduces motor vehicle fees on large, sport utility vehicles and other expensive vehicles and shifts the taxes normally paid by these vehicles onto older vehicles, and, in some cases, actually increases the motor vehicle fees on passenger cars and other light vehicles. The primary beneficiaries of LR-115 are the owners or purchasers of expensive vehicles or sport utility vehicles.

LR-115 substantially complicates the distribution scheme of revenue from motor vehicles. Under LR-115, each vehicle type would have its own distribution scheme. County treasurers would be required to maintain a distribution mechanism, which is different for each vehicle category. In addition, each county treasurer would be required to count newly manufactured light vehicles, motorcycles, quadricycles, buses, heavy trucks, truck tractors and motor homes. County treasurers will also have to keep track of vehicles over ten years of age which have been permanently registered, vehicles that have been registered for two-year periods and those that have been registered for one-year periods. Finally, owners of permanently registered vehicles would be required to replace their license plates every four years, a status that would have to be tracked by county treasurers.

The bottom line is that LR-115 severely erodes local government and school district revenue and establishes a bureaucracy of its own through the establishment of a complicated revenue distribution scheme and vehicle tracking requirements. LR-115 may look good on the surface, but it's a wolf in sheep's clothing that could well end up costing you more in tax increases on your home or business than you will gain in lower vehicle fees.

PROPOSERS' rebuttal of those opposing the issue

Vehicle Flat Fee Rebuttal LR-115

Simple. Predictable.

LR-115 is the second step in correcting a tax burden ordinary citizens have been shouldering for a long time. If you have a nice pickup, a fairly new SUV and an average home, the taxes on your vehicles under the existing tax system can be greater than on your home.

During the past two years the legislature with SB260 and special session HB4 reduced the taxes on cars by nearly 30%. At the same time the state no longer took a share of the auto tax. As a result, local governments as a group have the same income from autos as they had in 1998. Once the voters decide whether to approve LR-115, the legislature can address the remaining awkwardness by simplifying the distribution to local governments of the automobile funds.

Following LR-115, other changes that earmark tax sources need to be done to the distribution of tax revenues in such a way that ordinary people can judge how well each of their government servants are performing.

In summary:

- ◆ LR-115 Simple
- ◆ LR-115 Predictable
- ◆ LR-115 Accountable to the public.

This proposal, submitted by the Legislature for a vote, would repeal Montana's inheritance tax. Currently, the inheritance tax is imposed on the transfer of property when a person dies, except that property passed to a surviving spouse, children, step-children, and other lineal descendants is exempt. Current law also exempts family-held business property transferred to most relatives of the deceased, as well as property passed to charitable or governmental organizations. The inheritance tax affects an estimated 800-900 estates yearly. If passed, this measure would apply to deaths occurring after December 31, 2000. State and federal estate taxes would not be affected.

Inheritance taxes are due within 18 months of the date of death, so some collections will continue after the effective date. Therefore, state revenue will be reduced by \$6.3 million in 2002 and by \$12.7 million in 2003. Revenue from inheritance tax has been growing at 6.5% per year.

LR-116

The repealing of state inheritance taxes.

THE SPECIAL SESSION OF THE 56TH LEGISLATURE passed HB7, which submits, to the voters a referendum for the repealing of state inheritance taxes.

THE INHERITANCE TAX HAS BEEN IN EXISTENCE IN MONTANA since the 1920's and originally it taxed the entirety of any estate distribution regardless of to whom it was distributed. Over the years it has been revised so that no distribution to a surviving spouse or lineal descendent is taxed. Distributions to anyone else are taxed.

THE INHERITANCE TAX IS UNFAIR FOR THE FOLLOWING REASONS:

\$-THE ASSETS HAVE ALREADY BEEN TAXED several times during the lifetime of the deceased.

\$-FAMILY FARMS, RANCHES AND BUSINESSES get broken up to pay the taxes.

\$-IT IS A TAXATION ON INFLATION. Many farms and ranches, especially in Western Montana have increased significantly in value, but income has not kept up with depressed agricultural prices.

\$-DEATH AND TAXES MOST OFTEN BURDEN THE VERY PEOPLE THAT TAX POLICIES INTEND TO HELP, the elderly and the poor. Since they frequently have fewer assets, they must liquidate the inheritance to pay the taxes.

\$-FARMS AND RANCHES OFTEN TIMES WILL BE SOLD to developers or wealthy out-of-state buyers who often change the traditional use and restrict access.

\$-THE TAX IS DISCRIMINATORY against those who do not have children and direct descendents or those who have lost their children. Why should persons who have children not have to pay the tax while those with no direct descendents do have to pay?

\$-MANY OLDER MONTANA CITIZENS when planning for their eventual death and disposition of assets, decide to move to another state where there is no inheritance tax. This is not the kind of tax policy we need in Montana.

\$-THE INHERITANCE TAX IS NOT A GOOD RETURN FOR THE STATE OF MONTANA. This tax currently brings in about \$12 million per year. Left in the hands of the public, it would retain and create jobs and create more revenue to Montana.

THERE IS A SURPLUS AND NOW IS THE TIME TO REMOVE THIS UNFAIR AND CUMBERSOME TAX. KEEP MONTANA FARMS, RANCHES AND BUSINESSES IN TACT, PRODUCTIVE AND PAYING MONTANA EMPLOYEES.

ARGUMENT AGAINST

The Montana inheritance tax is **NOT** about taxing children or grandchildren who inherit the family farm or business. It is **NOT** about taxing a surviving spouse, stepchild or adopted children. It is **NOT** the same tax as the Federal estate tax. This tax IS about providing on average more than \$12 million a year to the state's revenue that is spent on schools, University system, firemen, highway patrol, and other government programs. It IS a tax that out-of-staters pay, too. If this tax goes away, working Montanans' will have to pick up the tab from the loss of revenue to the State which was almost \$13 million in 1999, through higher property or income taxes.

The 1923 Legislature enacted this tax. It has withstood the scrutiny of legislative action over the last 76 years. Over time, the Legislature added fairness to the tax so it has no impact on more than 90% of Montanans. Montana's inheritance tax now exempts spouses and lineal descendants from the payment of any tax. In other words, if you are a surviving spouse, child, grandchild, great-grandchildren and on down the line, if you are an adopted child or stepchild of someone who dies you do not pay an inheritance tax. In closely held businesses even more exemptions are given for aunts, uncles, cousins, and their descendants. The payment of this tax is only the liability of those who are not direct descendants. And even some people not exempt have deductions and a limited liability when paying the tax.

The supporters of the repeal try to say that this tax is unfair to farms and small businesses. This is not the case. No tax is paid by a surviving spouse or child regardless of the value of the farm, ranch, or small business. The tax is based on the value of the share of the estate that passes to the person's beneficiaries. The relationship to the person who died is considered. An inheritance tax may be assessed only if a relative is not a lineal descendant or if the recipient is unrelated to the person who died.

Another concern is the possibility of a tax shift to ordinary Montana middle income people and those who are on a fixed income which includes many senior citizens. If we were to lose \$13,000,000 a year from the repeal of the inheritance tax then taxes will have to be raised to offset the loss. We believe that Montana's limited inheritance tax is a fairer method of raising state revenue than increasing our income or residential property taxes or passing a sales tax. Some senior citizens and many others already face a crisis when their property taxes increase.

Do not vote for repealing Montana's inheritance tax. You could be voting for a property or income tax increase on yourself and more than 90% of Montana tax payers.

PROPOSERS' rebuttal of those opposing the issue

TAX is the key word to those opposing this referendum. This is not a proposal to redistribute this **tax** to others. There are more than ample revenues and reserves to eliminate this **tax** and it's highly questionable if the state will suffer a loss with this repeal. The inheritance **tax** is costly to collect and the money left in the hands of those receiving the inheritance will generate considerable revenues to the State of Montana.

This is a large **tax** placed on a small portion of our population and it is unfair. Repealing this **tax** will not raise income **tax**, it will not raise property **tax** and it certainly will not be the impetuous to pass a sales **tax** in Montana. We have the opportunity to repeal this **unfair discriminatory tax**.

Vote to repeal the inheritance tax.

OPPOSERS' rebuttal of those supporting the issue

**THE REPEAL OF THE STATE INHERITANCE TAX WILL EITHER RAISE YOUR
RESIDENTIAL PROPERTY TAXES OR CUT FUNDING FOR PUBLIC EDUCATION.**

Are you concerned about the amount you pay in taxes on your home? Do you believe that the level of funding for our public schools and universities may be inadequate? If your answer to either of these questions is "yes" then you should vote against the repeal of our state inheritance tax.

Each year this tax contributes thirteen million dollars to the state. Sixty percent of this money is used to support our educational system. If the inheritance tax is repealed, we will have to cut funding for education or raise taxes. **Do you want to pay higher property taxes? Do you want a State wide sales tax?** These are the choices which the elimination of the inheritance tax will force upon us. **VOTE NO!**

We cannot rely on a "surplus" to pay for the loss of thirteen million dollars a year. What if the recession now faced by agriculture spreads to the rest of our economy?. What if unanticipated expenses from the fire season mushroom out of control? What if utility deregulation puts more of our citizens out of work? Faced with these many other uncertainties a projected budget surplus is gone and we could be severely short of revenue for basic public services, especially education.

Our state inheritance tax is a reasonable part of our taxing structure. It does not tax a surviving spouse or children. It does not force the sale of a family business that is passed to a spouse or children. It does provide important revenue to help our public schools and university system. You can read about our inheritance tax on the Internet at www.montana.edu, at the Montana State University site search on inheritance tax. Scroll down the page until you find the article, "Montana Inheritance and Estate Taxes". This article gives you a basic understanding of the tax and examples that are easy to follow.

INITIATIVE NO. 143

A LAW PROPOSED BY INITIATIVE PETITION

This initiative would amend state law to prohibit all new alternative livestock ranches, also known as game farms. Existing game farms would be allowed to continue operating, but would be prohibited from transferring their licenses to any other party. They would also be prohibited from allowing shooting of game farm animals for any type of fee. The proposal also repeals provisions of the law concerning applications for expansion of game farms. If approved by the voters, the measure would take effect immediately.

This measure would eliminate \$104,000 in annual costs of review of game farm applications and expansions, as well as \$3,850 yearly revenues from application fees. Abolishing fee shooting may force closure of some game farms, which could result in less revenue to the state and in lower overall regulation costs.

ARGUMENT FOR

I-143, the "Game Farm Reform Initiative," will stop the growth of the game farm industry and stop the unethical captive shooting of penned big game animals, also known as "canned hunts." Existing game farms will be allowed to continue all operations, except for canned hunts (which will effect only 15 game farms).

Game Farming threatens Montanan's fair-chase hunting and wildlife heritage, and undermines a unique and tremendously successful system of public wildlife management and public hunting in North America. These serious and well-documented threats include disease, hybridization, the creation and expansion of commercial markets for wildlife, loss of wildlife habitat, and an unacceptable, bankrupt image of hunting portrayed by the paid shooting of captive animals. Game farms also threaten a strong economy based on the public pursuit and enjoyment of wild, free-ranging public wildlife.

At the turn of the last century, wildlife in North America had been decimated by commercial markets for the meat, hides, antlers and other parts of wildlife. Many animals, such as elk and deer, were on the verge of extinction. Hunter conservationists such as Theodore Roosevelt put an end to the commercial market killing of wildlife and led an effort to restore America's wildlife. In the words of Roosevelt: *"The professional market hunter who kills game for the hide or for the feathers or for the meat or to sell antlers and other trophies; market men who put game in cold storage; and the rich people, who are content to buy what they have not the skill to get by their own exertions--these are the men who are the real enemies of game."*

Roosevelt and others helped devise a unique system of wildlife management based on four principles: 1) Wildlife as a public resource; 2) A ban on the commercial markets of vulnerable wildlife; 3) Allocation of wildlife controlled by law; 4) A ban on the frivolous killing of wildlife. This tremendously successful system allows all Americans equal access towards wildlife resources and fuels public participation and concern for wildlife, wildlife research, and habitat protection and conservation education that benefits not just hunted species, but all other wildlife as well.

Game ranching undermines this system by creating and expanding commercial markets for vulnerable wildlife, privatizing a public resource, and bringing us closer to a European-like system in which wildlife is intensely managed to produce products only the wealthy can afford. Game ranching and captive shooting operations demonstrate a total disregard for our wildlife and hunting heritage, threatens legitimate, fair-chase hunting, creates and spreads disease that threaten wildlife and traditional livestock, and requires a substantial subsidy taken from license revenue paid by legitimate hunters.

From 1995-1999, the Montana Department of Fish, Wildlife and Parks spent \$1,000,000 of license revenue generated from hunter and anglers to license and regulate game farms. During that same period game farmers paid \$38,300 in fees.

In 1992 game farm elk shipped from Montana to Alberta caused an outbreak of bovine tuberculosis (TB) that infected elk, cattle, and 42 people. In addition to \$25 million direct cost to the taxpayers it cost the entire country its TB free status, estimated by Agriculture Canada to be worth \$1 billion. Last winter the existence of Chronic Wasting Disease (CWD) was confirmed on a Montana game farm. There is no live test for CWD; there is no way to know if infected animals are being moved around the state. The spread of CWD appears to be associated with the movement of game farm animals.

In short, game ranching poses many serious and well-documented threats to Montana's wildlife and fair-chase hunting heritage and threatens a strong economy based on the public hunting and enjoyment of public wildlife. As retired Montana wildlife biologist Jim Posewitz, founder of Orion-The Hunter's Institute, says: **"Game farming commercializes the last remnants of the great wild commons, it seeks to privatize what is held in trust by all of us, it domesticates the wildness we sought to preserve, and it trivializes what is exceptional The things we value die inside the woven wire of game farms."**

ARGUMENT AGAINST

VOTE AGAINST I-143

Quoting the Region 4 Supervisor for the Montana Department of Fish, Wildlife & Parks (FWP), "THE WHOLE ALTERNATIVE LIVESTOCK (Game Farm) ISSUE IS LONG ON OPINION AND SHORT ON FACTS."

REGULATORY HISTORY: There are currently 92 alternative livestock ranches in Montana. Over the past ten years, the Montana Legislature and the Game Farm Negotiated Rulemaking Committee (consisting of Montana Alternative Livestock Producers, Montana Wildlife Federation, Montana Stockgrowers Association, Montana Department of Livestock, and FWP) have worked diligently to draft, adopt, and implement statutes and rules which allow diversification opportunities for Montana's farmers and ranchers, yet, at the same time, provide adequate regulatory safeguards to protect Montana's wild populations.

APPLICATION OF I-143: I-143 undermines the significant work done by the Montana Legislature and the Negotiated Rulemaking Committee. Three particularly offensive provisions attack the ability of these 92 family farms and ranches to stay in business.

1. I-143 replaces the chronic wasting disease (CWD) moratorium (discussed below) placed on new licenses during the Special Legislative Session, with an absolute ban. This demonstrates the lack of flexibility, reasonableness, and compromise on the part of the I-143 sponsor and its supporters.
2. I-143 will ultimately eliminate every elk ranch in Montana by not allowing current licensees to transfer their licenses before or at the time of their death. This prohibition attacks the time-honored tradition of rural Montana farmers and ranchers passing down their ranching operations to their children and grandchildren.
3. I-143 seeks to prohibit the harvesting of private animals on private property, which is the end product of any livestock operation or industry. I-143 seeks to dictate what animals Montana's farms and ranches raise and how those animals are managed. This year elk ranchers are targeted for elimination. Who will be next – game bird operations, buffalo producers, people who raise llamas, or even traditional livestock producers?

ANIMAL HEALTH: To ensure a high degree of protection for domestic deer and elk, traditional livestock and Montana's wildlife, Montana has adopted the most stringent herd health regulations in the United States governing alternative livestock operations. Mandatory testing protocols are in place for Brucellosis and Tuberculosis each time an animal is bought or sold. Pursuant to the negotiated rules, all domestic elk in Montana have been tested for elk-red deer hybridization, ensuring that they are pure Rocky Mountain elk. Every domestic elk or deer that dies in Montana on an alternative livestock ranch (561 to date on 41 ranches), regardless of the cause of death, is tested for CWD at the producer's expense (\$150 - \$300). In May of this year, the Montana Legislature passed Senate Bill 7 which placed a temporary moratorium on new licenses until a live animal test for CWD is developed and approved by the Department of Livestock. The purpose of Senate Bill 7 was to develop a regulatory solution which was both reasonable and based on science in order to address the concerns of the general public.

ECONOMICS IMPACTS: Current alternative livestock operations in Montana contribute between \$15 and \$20 million to the State's economy on less than 13,000 acres. Alternative livestock are a logical addition to the traditional resource-based economy of the State. It is an appealing marriage between the frontier heritage of Montana, its independent spirit, and economic development. At a time when Montana is at the bottom of the list in average income, it is essential and responsible to expand business opportunities using existing resources rather than destroying them through unnecessary interference with private enterprise. Such tinkering will have the additional effect of creating an artificial value for existing operations, similar to liquor licenses and gambling permits. Market forces and science should dictate policy decisions rather than hysteria and emotion. I-143 will instill total government control of a sector of private enterprise in Montana, setting a dangerous precedent for all Montana businesses.

PROPOSERS' rebuttal of those opposing the issue

The Facts on Game Farming:

REGULATORY HISTORY: There are 82 licensed game farms in Montana. Many conduct "canned hunts." Montana has rules regulating game farms only because sportsmen have demanded the Legislature and the DOL establish rules to protect our wildlife & livestock. The industry has consistently resisted measures to safeguard our wildlife and agricultural heritage. During negotiated rule making, the game farm industry refused to even discuss the only method to prevent nose-to-nose contact between wild and penned animals- double fencing.

APPLICATION OF I-143: I-143 does not prohibit current license holders from operating their businesses nor does it prevent ranchers from passing on their lands and facilities. It prevents the transfer of a game farm license. I-143 does not prevent current owners from breeding, antler harvesting or slaughter of animals. Our federal and state governments already limit the scope of agriculture to protect humans, wildlife, and livestock. For example, Montanans cannot legally raise Red Deer or marijuana.

ANIMAL HEALTH: Montana has one of the most valuable wildlife resources in the United States. The game farm industry has a history of disease problems such as TB and now CWD. There is neither live test nor prevention for CWD. Game farm animals have escaped from Montana game farms every year on record. SB 7 does nothing to prevent escape of game farm animals. Its purpose was to stall efforts to collect signatures for the initiative in order to prevent a public vote and mislead the public into believing the industry was doing something that protects our public wildlife.

ECONOMIC IMPACTS: The economic impact of selling fake sex-stimulants and shooting tame animals in faked hunts is trivial in comparison to the economic impacts of hunting, and wildlife viewing, which generate \$413 million each year to Montana's economy. Game farms create a market for wildlife and wildlife parts which lead to poaching and theft of wildlife. Montana hunters pay \$200,000 each year to regulate game farms. I-143 is the direct result of the Legislature's failure to deal with the problems of game farming.

Many other states are looking at eliminating game farms completely because of the many problems they cause. Read "The Money Game" in the June Atlantic Monthly: www.theatlantic.com/issues/2000/06/herring

OPPONENTS' rebuttal of those supporting the issue

BOTTOM LINE: The arguments for I-143 rely on inflammatory rhetoric, skewed implications, and faulty statistics. "There is a steady stream of speculations, allegations, inferences, emotional charges, soft science, innuendo, and plain misinformation." (Region 4 Supervisor for Department of Fish, Wildlife & Parks - FWP).

QUIT LIVING IN THE PAST: Domestic deer and elk are NOT wildlife. Producers do not steal these animals out of the wild; rather, they are purchased from legal entities approved by FWP and are 10-12 generations removed from wild populations. The I-143 sponsors need to move beyond the animal theft, hybridization, disease, and animal escape rhetoric, all of which are NON-ISSUES under the new rules and statutes already implemented by the Department of Livestock and FWP. If the alternative livestock producers truly had an impact on Montana's hunting heritage, the State would see a significant decline in hunting licenses being sold, which certainly is NOT the case.

I-143 IS UNCONSTITUTIONAL: Art. II § 3 of the Montana Constitution provides that no person shall be deprived of his/her ability to acquire, possess, or protect private property. Because I-143 effectively "steals" the business of 92 Montana family farmers and ranchers, I-143 is a "taking without just compensation." This taking of private enterprise may cost the State (NOT the I-143 sponsors) in excess of \$50 million dollars.

PROGRAM FUNDING: Elk ranchers have attempted to eliminate use of sportsmen dollars for this industry on two occasions, both of which were opposed by the I-143 sponsors. Current funding for the program is based on license fees and per-animal assessments (\$32 for elk vs. \$1.20 for cattle). Over the past 5 years, the producers have spent in excess of \$4.4 million on regulatory safeguards for approximately 4,500 animals. In addition, the domestic elk industry has spent in excess of \$500,000 on research for a live test and cure for CWD, which has been a proven wildlife disease for more than 30 years. In contrast, I-143 sponsors and related conservation groups have spent \$0 on CWD research.

registration fee is in addition to other annual registration fees.

(2) (a) Light vehicles that meet the description of property exempt from taxation under 15-6-201(1)(a), (1)(c) through (1)(e), (1)(g), (1)(m), (1)(o), (1)(q), or (1)(w), 15-6-203, or 15-6-215, except as provided in 61-3-520, are exempt from the fee imposed in subsection (1).

(3) The owner of a motor vehicle subject to the provisions of 61-3-313 through 61-3-316 may register the light vehicle for a period not to exceed 24 months. The application for registration or reregistration must be accompanied by the registration fee and all other fees required in this chapter for each 12-month period of the 24-month period. However, the registration fees required under 61-3-321 (1)(a) or (1)(b) paid at the time of registration or reregistration apply for the entire 24-month registration period.

5-10	65
11 or more	6

(2) A light vehicle subject to the registration fee imposed by [section 1] may not be operated unless the fee has been paid and the vehicle is licensed. A lien for fees due on the vehicle occurs on the anniversary date of the registration and continues until the fees have been paid.

(3) For the purposes of this section, "vehicle age" means the age of the vehicle determined by subtracting the manufacturer's model year of the vehicle from the calendar year for which the registration fee is due.

Section 3. Permanent registration -- transfer of vehicle ownership -- rules. (vii) if applicable, the annual scholarship donation fee under 61-3-465.

(b) A person who permanently registers a vehicle as provided in subsection (1)(a) shall pay an additional \$2 fee at the time of registration for deposit in the state general fund. The department shall pay from the general fund an amount equal to the \$2 fee collected under this subsection (1)(b) from each motor vehicle registration to the pension trust fund for payment of supplemental benefits provided for in 19-6-709.

(5) (a) The permanent registration of a vehicle allowed by this section may not be transferred to a new owner. If the vehicle is transferred to a new owner, the department shall cancel the vehicle's permanent registration.

(b) Upon transfer of a vehicle registered under this section to a new owner, the new owner shall apply for a certificate of ownership under 61-3-201 and file an application for registration under 61-3-303.

"15-70-101. Disposition of funds. (1) All taxes collected under this chapter must, in accordance with the provisions of 15-1-501, be placed in a highway revenue account in the state special revenue fund to the credit of the department of transportation. Beginning July 1, 2001, all interest and income earned on the account must be deposited to the credit of the account and any unexpended balance in the account must remain in the account. Those funds allocated to cities, towns, counties, and consolidated city-county governments in this section must, in accordance with the provisions of 15-1-501, be paid by the department of transportation from the state special revenue fund to the cities, towns, counties, and consolidated city-county governments.

(2) The amount of \$16,766,000 of the taxes collected under this chapter is statutorily appropriated, as provided in 17-7-502, to the department of transportation and must be allocated each fiscal year on a monthly basis to the counties, incorporated cities and towns, and consolidated city-county governments in Montana for construction, reconstruction, maintenance, and repair of rural roads and city or town streets and alleys, as provided in subsections (2)(a) through (2)(c):

(3) (a) For the purpose of allocating the funds in subsections (2)(b) and (2)(c) to a consolidated city-county government, each entity must be considered to have separate city and county boundaries. The city limit boundaries are the last official city limit boundaries for the former city and must be used to determine city and county populations and road mileages in the following manner:

(i) Percentage factors must be calculated to determine separate populations for the city and rural county by using the last official decennial federal census population figures that recognized an incorporated city and the rural county. The factors must be based on the ratio of the city to the rural county population, considering the total population in the county minus the population of any other incorporated city or town in the county.

(ii) The city and county populations must be calculated by multiplying the total county

population, as determined by the latest official decennial census or the latest interim year population estimates from the Montana department of commerce as supplied by the United States bureau of the census, minus the population of any other incorporated city or town in that county, by the factors established in subsection (3)(a)(i).

(b) The amount allocated by this method for the city and the county must be combined, and single monthly payments must be made to the consolidated city-county government.

(4) All funds allocated by this section to counties, cities, towns, and consolidated city-county governments must be used for the construction, reconstruction, maintenance, and repair of rural roads or city or town streets and alleys or for the share that the city, town, county, or consolidated city-county government might otherwise expend for proportionate matching of federal funds allocated for the construction of roads or streets that are part of the primary or secondary highway system or urban extensions to those systems. The governing body of a town or third-class city, as defined in 7-1-4111, may each year expend no more than 25% of the funds allocated to that town or third-class city for the purchase of capital equipment and supplies to be used for the maintenance and repair of town or third-class city streets and alleys.

(5) All funds allocated by this section to counties, cities, towns, and consolidated city-county governments must be disbursed to the lowest responsible bidder according to applicable bidding procedures followed in all cases in which the contract for construction, reconstruction, maintenance, or repair is in excess of \$4,000.

(6) For the purposes of this section in which distribution of funds is made on a basis related to population, the population must be determined annually for counties and biennially for cities according to the latest official decennial census or the latest interim year population estimates from the Montana department of commerce as supplied by the United States bureau of the census.

(7) For the purposes of this section in which determination of mileage is necessary for distribution of funds, it is the responsibility of the

cities, towns, counties, and consolidated city-county governments to furnish to the department of transportation a yearly certified statement indicating the total mileage within their respective areas applicable to this chapter. All mileage submitted is subject to review and approval by the department of transportation.

(8) Except by a town or third-class city as provided in subsection (4), the funds authorized by this section may not be used for the purchase of capital equipment.

(9) Funds authorized by this section must be used for construction and maintenance programs."

(2) (a) All number plates for motor vehicles must be issued for a minimum period of 4 years, bear a distinctive marking, and be furnished by the state. In years when number plates are not

issued, the department shall provide nonremovable stickers bearing appropriate registration numbers that must be affixed to the license plates in use.

(b) For light vehicles that are permanently registered as provided in [section 3] or 61-3-527, the department shall provide distinctive nonremovable stickers indicating that the vehicle is permanently registered. The stickers must be affixed to the license plates in use.

(3) Subject to the provisions of this section, the department shall create a new design for number plates as provided in this section.

(4) In the case of motorcars and trucks, plates must be of metal 6 inches wide and 12 inches in length. The outline of the state of Montana must be used as a distinctive border on the license plates, and the word "Montana" and the year must be placed across the plates. Registration plates must be treated with a reflectorized background material according to specifications prescribed by the department.

(5) The distinctive registration numbers must begin with a number one or with a letter-number combination, such as "A 1" or "AA 1", or any other similar combination of letters and numbers. The distinctive registration number or letter-number combination assigned to the vehicle must appear on the plate preceded by the number of the county and appearing in horizontal order on the same horizontal baseline. The county number must be separated from the distinctive registration number by a separation mark unless a letter-number combination is used. The dimensions of the numerals and letters must be determined by the department, and all county and registration numbers must be of equal height.

(6) For the use of ~~tax-exempt exempt~~ motor vehicles and motor vehicles that are exempt from the registration fee as provided in [section 1(2)(a)], in addition to the markings provided in this section, number plates must bear the following distinctive markings:

(a) For vehicles owned by the state, the department may designate the prefix number for the various state departments. All numbered plates issued to state departments must bear the words "State Owned", and a year number may not be indicated on the plates because these numbered

plates are of a permanent nature and will be replaced by the department only when the physical condition of numbered plates requires it.

(b) For vehicles that are owned by the counties, municipalities, and special districts, as defined in 18-8-202, organized under the laws of Montana and not operating for profit, and that are used and operated by officials and employees in the line of duty and for vehicles on loan from the United States government or the state of Montana to, or owned by, the civil air patrol and used and operated by officials and employees in the line of duty, there must be placed on the number plates assigned, in a position that the department may designate, the letter "X" or the word "EXEMPT". Distinctive registration numbers for plates assigned to motor vehicles of each of the counties in the state and those of the municipalities and special districts that obtain plates within each county must begin with number one and be numbered consecutively. Because these number plates are of a permanent nature, they are subject to replacement by the department only when the physical condition of the number plates requires it and a year number may not be displayed on the number plates.

(7) On all number plates assigned to motor vehicles of the truck and trailer type, other than tax-exempt trucks and tax-exempt trailers, there must appear the letter "T" or the word "TRUCK" on plates assigned to trucks and the letters "TR" or the word "TRAILER" on plates assigned to trailers and housetrailer. The letters "MC" or the word "CYCLE" must appear on plates assigned to vehicles of the motorcycle or quadricycle type.

(8) Number plates issued to a passenger car, truck, trailer, or vehicle of the motorcycle or quadricycle type may be transferred only to a replacement passenger car, truck, trailer, or motorcycle- or quadricycle-type vehicle. A registration or license fee may not be assessed upon a transfer of a number plate under 61-3-317 and 61-3-335.

(9) For the purpose of this chapter, the several counties of the state are assigned numbers as follows: Silver Bow, 1; Cascade, 2; Yellowstone, 3; Missoula, 4; Lewis and Clark, 5; Gallatin, 6; Flathead, 7; Fergus, 8; Powder River,

9; Carbon, 10; Phillips, 11; Hill, 12; Ravalli, 13; Custer, 14; Lake, 15; Dawson, 16; Roosevelt, 17; Beaverhead, 18; Chouteau, 19; Valley, 20; Toole, 21; Big Horn, 22; Musselshell, 23; Blaine, 24; Madison, 25; Pondera, 26; Richland, 27; Powell, 28; Rosebud, 29; Deer Lodge, 30; Teton, 31; Stillwater, 32; Treasure, 33; Sheridan, 34; Sanders, 35; Judith Basin, 36; Daniels, 37; Glacier, 38; Fallon, 39; Sweet Grass, 40; McCone, 41; Carter, 42; Broadwater, 43; Wheatland, 44; Prairie, 45; Granite, 46; Meagher, 47; Liberty, 48; Park, 49; Garfield, 50; Jefferson, 51; Wibaux, 52; Golden Valley, 53; Mineral, 54; Petroleum, 55; Lincoln, 56. Any new counties must be assigned numbers by the department as they may be formed, beginning with the number 57.

(10) Each type of special license plate approved by the legislature, except collegiate license plates authorized in 61-3-463, must be a separate series of plates, numbered as provided in subsection (5), except that the county number must be replaced by a nonremovable design or decal designating the group or organization to which the applicant belongs. Unless otherwise specifically stated in this section, the special plates are subject to the same rules and laws as govern the issuance of regular license plates, must be placed or mounted on a vehicle owned by the person who is eligible to receive them, and must be removed upon sale or other disposition of the vehicle. The special license plates must be issued to national guard members, former prisoners of war, persons with disabilities, reservists, disabled veterans, survivors of the Pearl Harbor attack, veterans of the armed services, or veterans of the armed services who were awarded the purple heart medal, who comply with the following provisions:

(a) An active member of the Montana national guard may be issued special license plates with a design or decal displaying the letters "NG". The commanding officer of each armed forces reserve unit shall issue to each eligible member of the reserve unit a certificate authorizing the issuance of special license plates, numbered in sets of two with a different number on each set. The member shall surrender the plates to the department upon becoming ineligible to use them.

(c) (i) A resident of Montana who is a veteran of the armed forces of the United States and who is 100% disabled because of an injury that has been determined by the department of veterans affairs to be service-connected may, upon presentation to the department of proof of the 100% disability, be issued:

(A) a special license plate under this section with a design or decal displaying the letters "DV"; or

(B) one set of any other military-related plates that the disabled veteran is eligible to receive under this section.

(ii) The fee for original or renewal registration by a 100% disabled veteran for a passenger vehicle or a truck with a GVW-rated capacity of 1 ton or less is \$5 and is in lieu of all other fees and taxes for that vehicle under this chapter.

(iii) Special license plates issued to a disabled veteran are not transferable to another person.

(iv) A disabled veteran is not entitled to a special disabled veteran's license plate for more than one vehicle.

(v) A vehicle lawfully displaying a disabled veteran's plate and that is conveying a 100% disabled veteran is entitled to the parking privileges allowed a person with a disability's vehicle under this title.

(d) A Montana resident who is a veteran of the armed forces of the United States and was

captured and held prisoner by a military force of a foreign nation, documented by the veteran's service record, may upon application and presentation of proof be issued special license plates, numbered in sets of two with a different number on each set, with a design or decal displaying the words "ex-prisoner of war" or an abbreviation that the department considers appropriate.

(e) Except as provided in subsection (10)(c), upon payment of all taxes and fees required by parts 3 and 5 of this chapter and upon furnishing proof satisfactory to the department that the applicant meets the requirements of this subsection (10)(e), the department shall issue to a Montana resident who is a veteran of the armed services of the United States special license plates, numbered in sets of two with a different number on each set, designed to indicate that the applicant is a survivor of the Pearl Harbor attack if the applicant was a member of the United States armed forces on December 7, 1941, was on station on December 7, 1941, during the hours of 7:55 a.m. to 9:45 a.m. (Hawaii time) at Pearl Harbor, the island of Oahu, or was offshore at a distance of not more than 3 miles; and received an honorable discharge from the United States armed forces. If special license plates issued under this subsection are lost, stolen, or mutilated, the recipient of the plates is entitled to replacement plates upon request and without charge.

(f) A motor vehicle owner and resident of this state who is a veteran or the surviving spouse of a veteran of the armed services of the United States may be issued license plates inscribed as provided in subsection (10)(f)(i) if the veteran was separated from the armed services under other than dishonorable circumstances or was awarded the purple heart medal:

(i) Upon submission of a department of defense form 214(DD-214) or its successor or documents showing an other-than-dishonorable discharge or a reenlistment, proper identification, and other relevant documents to show an applicant's qualification under this subsection, there must be issued to the applicant, in lieu of the regular license plates prescribed by law, special license plates numbered in sets of two with a

different number on each set. The plates must display:

(A) the word "VETERAN" and a symbol signifying the United States army, United States navy, United States air force, United States marine corps, or United States coast guard, according to the record of service verified in the application; or

(B) a symbol representing the purple heart medal.

(ii) Plates must be furnished by the department to the county treasurer, who shall issue them to a qualified veteran or to the veteran's surviving spouse. The plates must be placed or mounted on the vehicle owned by the veteran or the veteran's surviving spouse designated in the application and must be removed upon sale or other disposition of the vehicle.

(iii) Except as provided in subsection (10)(c), a veteran or surviving spouse who receives special license plates under this subsection (10)(f) is liable for payment of all taxes and fees required under parts 3 and 4 of this chapter and a special veteran's or purple heart medal license plate fee of \$10. Upon an original application for a license under this subsection (10)(f), the county treasurer shall:

(B) remit \$1 for deposit in the state general fund; and

(C) deposit the remainder of the special fee in the state special revenue account established in 10-2-603 for administration, construction, operation, and maintenance of the state veterans' cemeteries.

(iv) Upon subsequent annual renewal of registration, the county treasurer shall deposit all of the special fee as provided in subsection (10)(f)(iii)(C).

The equipment for which a special mobile equipment plate is sought is subject to the assessment of personal property taxes on the date application is made for the plate. The personal property taxes assessed against the special mobile equipment must be paid before the issuance of a special mobile equipment plate. The fees collected under this section belong to the county road fund.

(3) The identification plate expires on December 31 of each year. (4) Publicly owned special mobile equipment and implements of husbandry used exclusively by an owner in the conduct of ~~his own~~ the owner's farming operations are exempt from this section."

Section 31. Section 61-3-456, MCA, is amended to read:

"61-3-456. Registration of motor vehicle owned and operated by Montana resident on active military duty stationed outside Montana.

(1) As an incentive for military service, an owner of a motor vehicle who is a Montana resident who entered active military duty from Montana and who is stationed outside Montana may file with the department an application for the registration of the motor vehicle. (c) that the vehicle is owned and operated by a Montana resident who meets the qualifications of subsection (1) and is on active military duty and stationed outside Montana.

Section 32. Section 61-3-503, MCA, is amended to read:

"61-3-503. Assessment. (1) Except as provided in 61-3-520 and subsection (4) of this section, the following apply to the taxation of motor vehicles:

(a) Vehicles For the purposes of imposing the local option vehicle tax under 61-3-537, light vehicles subject to the provisions of 61-3-313 through 61-3-316 must be assessed as of the first day of the registration period, using the depreciated value of the manufacturer's suggested

retail price as determined in subsection (2).

(b) A lien for taxes and fees due on the vehicle occurs on the anniversary date of the registration and continues until the fees and taxes have been paid. If the depreciated value is less than \$500, the department shall value the vehicle at \$500.

(2) (a) Except as provided in subsections (2)(c) and (2)(d), the depreciated value for the taxation of light vehicles is computed by multiplying the manufacturer's suggested retail price by a percentage multiplier based on the type and age of the vehicle determined from the following table:

Age of Vehicle (in years)	Type of Vehicle			
	Auto- mobile	Truck	Van	Sport Utility
-1	100 %	100 %	100 %	100 %
0	90	96	93	98
1	80	91	86	94
2	69	86	78	90
3	58	80	69	84
4	49	73	60	76
5	41	66	52	67
6	33	57	45	57
7	26	49	38	48
8	21	43	32	39
9	17	37	27	33
10	14	31	22	29
11	12	26	18	25
12	10	22	15	22
13	09	18	13	21
14	09	15	11	19
15	09	13	09	17
16	09	12	09	15

(b) The age for the light vehicle is determined by subtracting the manufacturer's model year of the vehicle from the calendar year for which the tax is due.

(c) If the value of the vehicle determined under subsection (2)(a) is \$500 or less, the value of the vehicle is \$500 and the value must remain at that amount as long as the vehicle is registered.

(d) The depreciated value of a light vehicle that is 17 years old or older is computed by depreciating the value obtained for the vehicle at

16 years old, as determined under subsection (2)(a), by 10% a year until a minimum value of \$500 is attained. The value must remain at that amount as long as the vehicle is registered.

(3) (a) For the purposes of this section, "manufacturer's suggested retail price" means the price suggested by the manufacturer for each given type, style, or model of light vehicle produced and first made available for retail sale by the manufacturer.

(b) The manufacturer's suggested retail price is based on standard equipment of a vehicle and does not contain price additions or deductions for optional accessories.

(c) When a manufacturer's suggested retail price is unavailable for a motor vehicle, the department shall determine an alternative valuation for the vehicle.

(4) The provisions of subsections (1) through (3) do not apply to buses, trucks having a manufacturer's rated capacity of more than 1 ton, truck tractors, motorcycles, motor homes, quadricycles, travel trailers, campers, mobile homes or manufactured homes as those terms are defined in 15-1-101(1)."

~~rules for the administration of fees for trailers, pole trailers, and semitrailers, including criteria for determining a trailer's age and weight."~~

Section 34. Section 61-3-509, MCA, is amended to read:

"61-3-509. Disposition of taxes and fees.

At some time between March 1 and March 10 of each year and every 60 days after that date, the county treasurer shall distribute the money in the motor vehicle suspense fund. Except for registration fees collected under [sections 1 through 3], the county treasurer shall distribute money in the fund in the relative proportions required by the levies for state, county, school district, and municipal purposes in the same manner as personal property taxes are distributed. For money in the fund collected under [sections 1 through 3] and 61-3-527, the county treasurer shall disregard the statewide mills levied for county elementary and high school equalization under 20-9-331 and 20-9-333, the statewide mills levied for state equalization aid under 20-9-360, the statewide mills levied for the university system, and mills levied for state assumption of public assistance under 53-2-813 in determining distribution proportions of the money and may not distribute money from [sections 1 through 3] and 61-3-527 to the state for these levies. 61-3-527 to a school district general fund results in a lower revenue than the district received in fiscal year 1999 and the district has, for each year after fiscal year 1999, received less revenue than fiscal year 1999, then the district general fund is entitled to state reimbursement for the amount of the difference between the fiscal year 1999 revenue under 61-3-504, as that section read on September 30, 1999, and the current year distributions of collections under [sections 1 through 3] and 61-3-527.

~~(2)~~(3) The county treasurer shall deduct as a district court fee ~~7%~~ 10% of the amount of the ~~2% tax registration fee~~ collected on light vehicles. The county treasurer shall credit the fee for district courts to a separate suspense account and shall forward the amount in the account to the state treasurer at the time that the county treasurer distributes money from the motor vehicle suspense fund. The state treasurer shall credit amounts received under this subsection to the state special revenue fund to be used for purposes of state funding of district court expenses as provided in 3-5-901."

(b) If the purchase year of a motorcycle or quadricycle precedes the designated model year of the motorcycle or quadricycle and the motorcycle or quadricycle is originally titled in Montana, then the purchase year is considered the model year for the purposes of calculating the fee in lieu of tax.

(4) (a) The owner of a motorcycle or quadricycle 11 years old or older subject to the fee in lieu of tax under this section may permanently register the motorcycle or quadricycle upon payment of a \$30 fee in lieu of tax, the applicable registration and license fees under 61-3-321, and an amount equal to five times the applicable fees imposed for each of the following:

~~(2)~~(4) A local vehicle tax or flat fee is payable at the same time and in the same manner as the tax registration fee imposed under 61-3-504 [sections 1 through 3]. (a) 50% to the county; and

(b) the remaining 50% to the county and the incorporated cities and towns within the county, apportioned on the basis of population.
