

## Important Information Regarding the Inactive Voter Registration List

Electors in Montana can verify their voting status by visiting [VoteMT.gov](http://VoteMT.gov) or contacting the local [County Election Office](#).

- If you are on the **Inactive Voter Registration List**, it is because of the following:
1. You did not vote in a federal general election, and you did not respond to two confirmation mailings sent to you by the county election office, *or*;
  2. You had a mail ballot returned to the county election office as undeliverable, and you did not respond to a confirmation mailing sent to you by the county election office.

### Reactivating Your Registration is Easy!

- Electors can reactivate voter registration by:
1. Notifying the local [county election office](#) in writing that the voter registration information is current *or*;
  2. Appearing at the polling place where you are registered to confirm your current voter registration information (or appearing at your polling place to update your voter registration information with a new [voter registration application](#) *or*;
    - a) **Note:** if you appear at the polling place and update your registration information to a new precinct, you may vote one last time at your old precinct/polling place.
    - b) If the election is being conducted by mail **ONLY** – voters on the *Inactive* list are not automatically mailed ballots (most local elections, including city elections are conducted by mail).
      - i. Elections conducted by mail only will not have polling places so you must update your information by mail or in person if your information has not changed.
      - ii. If your information **HAS** changed, you must notify your county election office by mail or in person to receive a mail ballot for that election.
  3. [Requesting an absentee ballot](#) for any election *or*;
    - a) Provide a new or updated [voter registration application](#) to the county election office.
  4. If reactivating your registration information by mail, you must account for enough time for the voter registration form to reach the election office, and for a ballot to be mailed back to you. If it is within 3-4 days of election day, consider appearing in person at the election office to receive your ballot.

Forms can be found online at [VoteMT.gov](http://VoteMT.gov) or from your local [County Election Office](#).
