Schedule 8A Function Based Local Government Record Retention Schedule
Last revised: June 8, 2023
This record retention schedule is based on Municipal Schedule 8. It organizes record series by function rather than organizational structure and groups records series in that function by similar retention periods. It is available as optional alternative for local governments in Montana to adopt to manage their records.

	Function Description			
Governance & Strategic Initiatives (G&SI)	Information assets in this function are organization-wide. They establish the rights of the government and its citizens.			
(GAD)	They document the actions of its public meeting bodies, the			
	establishment of organization-wide strategic initiatives,			
	decision-making frameworks and systems, and administrative			
	rules. It includes assets relating to officially commissioned			
	reports, studies, plans, and surveys relating to organization of local government. Intergovernmental cooperation, Assets			
	demonstrating compliance with laws and regulations in this			
	function. Major historical public announcements and			
	pronouncements in support of this asset category.			
Land Governance & Public	This function includes information assets that govern the use			
Infrastructure Development	of land and the development of public infrastructure. It			
	includes assets that document development patterns of the			
	city and its built environment including the development of			
	permanent public infrastructure. It includes assets that preserve the public's rights to access and maintain public			
	infrastructure and private rights of usage.
